(Really, don't make your search any longer by reading this introduction!) SEO starts with the content. The content of this blog post will be about what I am searching on google. I'm looking for movies or any other resources which has tamil or hindi subtitles. I am specifically looking for vijay movies . So what will I do? When you are looking up a specific content online, you have to find something that contains the same words that you are looking up. Let's try this out with just one word "tamil". So there are 120k results for "tamil", but only 132k results if we include "tamil movie". This is because movie has 1 extra word to search. Other than 1 extra word, the words are also different. What if we add "tamil movie" to the search string? This time there are 132k results for this search "tamil movie". That's 4 less than before. This is because we added 1 extra word while searching. One extra word will reduce the number of results by 1/4th. 4 words = 1/4th of 132k will be 28k, and 4 words = 1/4th of 28k will be 8,636 results. In this blog, I will show the process of searching for "english vinglish tamil movie download uyirvani"?

I will also give a few websites wise advices in case if you are not able to find what you are looking for at first. One of the websites that I frequently visit is wikipedia.com . If you search on wikipedia, it shows how many results there are for a specific search string. So let's see what happens when we search for "english vinglish tamil movie download uyirvani"?

When we search on Wikipedia, we get 138k results. Let's look at the remaining number of pages to find out what happened to results. We have 132k results for "english vinglish tamil movie download uyirvani", so let's see how many pages there are remaining.

As you can see, there are 132k pages remaining, that is why it is impossible to find any result when looking up "english vinglish tamil movie download uyirvani" on Wikipedia. (There might be some silent results though) Now I'll show you how much time will take to look for "english vinglish tamil movie download uyirvani" by Google search in various languages.
